## Version History

Getting Started with VBA			Further VBA		
Version	Date	Comment	Version	Date	Comment
1	April 2000	Originally issued for COMP1003, then more widely to help Project students. There did not seem to be any textbooks that I could find that took a 'problem-solving' approach.  Deliberately kept brief to save paper.  Used Access 97.			
2	Nov/Dec 2000?	Some extra items added to version 1.	1	January 2001?	Issued to follow on from Getting Started v2.
3	December 2001	Adding to content.	2	May 2002	Adding to content.  Incomplete version; issued following requests from Project students.
4	October 2002	Adding to content and improving some code.	3	November 2002	Completing additions to content.
5.0	October 2004	Complete revision of v4, now uses Access 2000/2002.  Reorganised, fuller explanations, new content, exercises.			<i>There is no v4.</i>
5.1	July 2005	To correct some errors and omissions in v5.0.  Plus additions to content: <ul style="list-style-type: none"> <li>• Test plans for some examples.</li> <li>• How to use list and combo boxes.</li> <li>• The With statement.</li> <li>• Worked examples for booking procedures.</li> </ul>	5.0	July 2005	Complete revision of v3, to match Getting Started v5.1. Now uses Access 2000/2002.  Reorganised, fuller explanations, new content, exercises.
